

# Four-Room Audio Base Package

## **NUVO** Simplese

Two Sound Sources, Four Listening Zones  
 User-Friendly. Affordable. Simple.

The Simplese Dual Source Audio Distribution System by NuVo delivers clean, pure sound from two distinct sound sources to four distinct sound zones in the home—all at a cost comparable to many single-source systems.

A Single-Box Solution by NuVo

Simplese comes complete with the following:

- Two source inputs for multi-source capability
- Up to 4 zones of sound
- Standard wiring and universal design for easy upgrades
- 30 watts of power per zone for true audio amplification
- Built-in infra red receiver with standard remote for easy wireless control

## **DCM** LOUDSPEAKERS

DCM In-ceiling speakers are designed for every room in your home. Fill your halls, bedrooms and other areas with the rich sound only DCM can offer. Swivel mount tweeters let you point the sound toward your listening area for superior high frequency reproduction.

Variable tweeter level control on PC board offers custom tailored sound quality

Swivel mounted silk dome tweeter provides good sonic performance, and can be aimed to accommodate non-ideal mounting locations

Swivel style mounting dogs are factory positioned for easy installation

Fine steel mesh grilles with cloth insert, and black baffle will blend with home decor

High-performance crossover, featuring PTC tweeter protection provides consistent, reliable sound quality

Nickel plated compression terminals

Hole providers and Pre-construction kits.
